

# DIVIDE AND CONQUER!

Padded dividers transform your case into custom compartments.

**HARDIGG**  
**STORM CASE**  
Defy the Elements®

Customize your case with a padded divider set to keep sensitive and valuable equipment separate, stable and secure inside. Covered in water-resistant, PVC-coated, denier nylon fabric—every section is durable and strong. It's the ultimate in custom cushioned protection from base to lid.

Twenty-one divider sets allow you to fit models iM2050 through iM3075. Perfect for hundreds of applications, from small electronics to larger components and equipment.

Divider sections can be configured—and reconfigured—to fit your exact needs with sturdy hook-and-loop material. Details like the included wheel well covers ensure that you have every square inch covered and protected.

To purchase or to learn more, contact your Storm Case dealer, or call us at (800) 542-7344 to find a dealer near you.

# Divider sections can be configured—and reconfigured—to fit your exact needs.

## Featuring:

- Wheel well covers allow you to fill every available space confidently.
- Rearrange compartments as needed by adding or subtracting dividers.
- Extra-thick padding on outer walls and base protect sensitive equipment.
- Polyethylene wall stiffeners beneath padding on large partitions add durability.
- Hook-and-loop fasteners provide endless layout possibilities.
- Convoluted foam for case lid keeps contents secure in each cavity.
